LEGISLATIVE SENTINEL.

We propose to publish a Tri- Weekly paper of large and class it accordingly. We should be much gratified size during the coming session of the Legislature, at to be mistaken in this particular : ONE-DOLLAR for the session. As our papers heretofore have been characterized by the fullness and correctness of their reports, we have only to add, that we have been enabled to add to our already competent force, and have no hesitation in saying that we can still improve by the experience of former years.

We have sunk money in the attempt to sustain a Daily paper during the sessions heretofore; and shall not attempt it again unless with a prospect of success greater than we have at present reason to expect. The Tri-Weckly, however, will be nearly as large as our Weekly paper, and we shall be able to give more matter at a cheaper rate than we could give in a daily, with the saving of half the postage also to the subscriber. Our weekly paper which will be regularly continued, will contain none but legal advertisements, and will give full reports of Legislative proceedings, impartially made up by experienced report-

The terms of the Tri-Weekly will be \$1 00 Of the Weekly (without advertisements) 50 In no case will a copy be sent without the cash in advance. This rule is imperative.

G. A. & J. P. CHAPMAN. Will our cotemporaries please notice !

65 For the Otheral Returns of Indiana see next

A Slave Case.

A good deal of interest has been excited for a week past, in relation to a question involving the right of citizens of Slave States to arrest legitives in the N. W. Territory, and the States formed of the same, which has been pending in the U.S. Court, during its recent session in this city. The case in itself is one of great importance, and the condition of the public Journal go to church, roll up their eyes like a dack in mind at the present time, serves to increase the interest with which it would at all times be regarded.
